Wednesday, November 16, 2022 6:00 pm (EST) Call in number: 888-790-2037 Participant passcode: 8945002	

Note that the scoping meeting will start at 6:00 pm (EST) and will terminate once all participants wishing to comment have had the opportunity to do so, or at 8:00 pm (EST), whichever comes first. The primary goal of this scoping session is to have you identify the specific environmental issues and concerns that should be considered in the environmental document. Individual oral comments will be taken on a one-on-one basis with a court reporter present on the line. This format is designed to receive the maximum amount of oral comments in a convenient way during the timeframe allotted.

There will be a brief introduction by Commission staff when the session opens. Important information about the FERC process will be provided, so please make every attempt to call in at the beginning of the meeting. All participants will be able to hear the one-on-one comments provided by other participants; however, all lines will remain closed during the comments of others and then opened one at a time for providing comments.

Your oral comments will be recorded by the court reporter (with FERC staff or representative present) and become part of the public record for this proceeding. Transcripts will be publicly available on FERC's eLibrary system. If a significant number of people are interested in providing oral comments in the one-on-one settings, a time limit of 3 minutes may be implemented for each commentor. It is important to note that oral comments hold the same weight as written or electronically submitted comments.
